LAN SONG

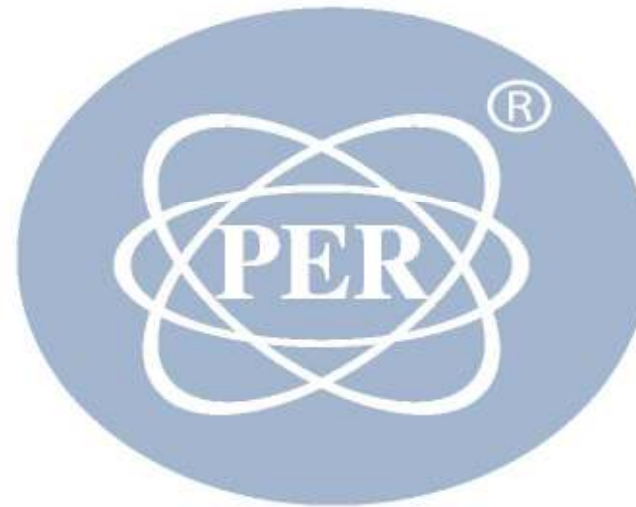

Lansong Company is a professional manufacturing company that has been in this business line with 30 years of history. We also have our own factory that can efficiently direct shipment to our customers worldwide providing excellent prices and the best quality.

Our main products are non-slip liner/mesh. Our product line also includes non-slip cushion, storage liners, bath mat, placemat, table mat, heavy duty sports mat, yoga mat for domestic use or use in workplace. Products from PVC have successfully been developed into environmental products :

PER & NER.

PER/NER products can pass all the environmental protection regulations and environmental testing for both Europe and United States. There won't be any concerns with human health and baby article. I strongly believe that our Eco products can allow your company to build a stronger image.

Polymer Environment Resin

Plastic have become the most convenient material in the human;s life because of their low price , light weight,superior properties and easy processing. Yet, most plastics are very stable and would not degrade even after a long period of time , which brings in a serious issue in the environment . The concern for a clean ENVIRONMENT becomes the main driving force behind the increasing interest in developing health & environment material --- **P.E.R.**
